trendy totes

If you green your meeting by foregoing plastic water bottles, you can give them back to your attendees in the form of the Envi Reusable Bag made of PET—an ultra-sustainable fabric made from recycled soda bottles. Envi offers traditional tote bags, wine totes, insulated totes and more in a variety of other eco-friendly fabrics like cotton canvas, jute and polypropylene. To go green with Envi, visit www.envireusablebags.com or call 877.GO.ECO.55.
